SOCIAL COGNITION

From brains to culture

Susan T. Fiske, Shelley E. Taylor

The social world is complicated and our minds are limited, so we take shortcuts. We have to make quick decisions - this person is dangerous, this one is not. The shortcuts we take mostly work well enough, because, after all, we survive. But some are deeply unjust, including racial or social class categories or other unfair stereotypes. This book will help your students understand how these shortcuts work, why they exist, and how they are changing.

MAKING HUMAN BEINGS HUMAN

Bioecological Perspectives on Human Development

Urie Bronfenbrenner

This is a landmark collection that traces and summarizes Urie Bronfenbrenner's thoughts on the bioecological theory of human development and recommends avenues for future research. The majority of the twenty-three retrospective articles were written by Bronfenbrenner, while some were written with colleagues in his own or related fields, over the course of six decades.

CHILD AND ADOLESCENT DEVELOPMENT

A Behavioral Systems Approach

Gary D. Novak, Martha Pelaez

This book integrates the views of dynamical systems concepts with a behavioral view of development. This combination of perspectives is unique and from it something new emerges – a “behavioral systems approach” to development. It is an approach that incorporates both personal and environmental influences and the constant reciprocal interactions between nature and nurture.
