Preface	xi
The Goal of This Text	xii
What's New in the Third Edition	xii
To the Student	xiii
To the Instructor	xiii
Organization of This Text	xiii
Acknowledgments	xv
1. Why Do Research on Families?	1
What Are the Stages of Social Research?	2
<i>Exploration</i>	2
<i>Description</i>	3
<i>Explanation</i>	4
<i>Prediction</i>	4
<i>Intervention</i>	5
<i>Evaluation</i>	6
How Is Research on Families Different?	6
<i>Families Are Systems of Individuals</i>	7
<i>Defining Family</i>	8
<i>Multiple Statuses and Multiple Roles</i>	8
<i>Backstage Behavior</i>	9
<i>Preconceptions About the Family</i>	9
The Benefits of Well-Conducted Research	11
Study Questions	12
For Further Reading	13
2. Causal Inference in Family Research	14
Variables	15
<i>Dependent Variables</i>	15
<i>Independent Variables</i>	15

<i>A Simple Causal Model</i>	15
<i>Intervening (Mediator or Mediating) Variables</i>	16
<i>Moderating (Control or Moderator) Variables</i>	17
Units of Analysis	20
Thinking Causally	21
<i>Temporal Precedence</i>	23
<i>Constant Conjunction</i>	23
<i>Nonspuriousness</i>	23
<i>Identifying Mechanisms and Specifying Context</i>	23
<i>Assessing Causality</i>	24
Framing the Hypothesis	25
<i>Directional Hypotheses</i>	25
<i>Nondirectional Hypotheses</i>	26
<i>Cross-Sectional Versus Longitudinal Designs</i>	26
Causal Inference in Qualitative Research	27
Study Questions	29
For Further Reading	29
3. Searching and Reading the Literature	31
Reading a Journal Article	33
<i>Title</i>	34
<i>Author and Institutional Affiliation</i>	34
<i>Abstract</i>	34
<i>Introduction</i>	34
<i>Literature Review</i>	35
<i>Methods</i>	36
<i>Sample</i>	36
<i>Measurement</i>	36
<i>Procedures</i>	37
<i>Findings or Results</i>	37
<i>Discussion</i>	38
<i>Conclusions</i>	38
<i>References</i>	38
<i>Tables</i>	39
<i>Figures</i>	39
Where Do I Go From Here?	39
How Do Journal Articles Get Published?	40
Research Monographs	42
Edited Volumes	43
Other Types of Publications	43
Study Questions	45
For Further Reading	46

4. Sampling Issues	47
Defining the Population	49
Sampling Designs	50
<i>Probability Samples</i>	50
<i>Nonprobability Samples</i>	53
How Large Does the Sample Need to Be?	55
How Do We Go About Choosing a Sampling Technique?	56
Study Questions	56
For Further Reading	57
5. How Do We Measure Concepts?	58
Characteristics of a Good Measurement Procedure	59
Levels of Measurement	60
<i>Levels of Measurement: Nominal</i>	60
<i>Levels of Measurement: Ordinal</i>	61
<i>Levels of Measurement: Interval</i>	62
<i>Levels of Measurement: Ratio</i>	62
<i>Summary of Levels of Measurement</i>	63
What Are Reliability and Validity?	63
<i>Reliability</i>	64
<i>Stability</i>	64
<i>Consistency</i>	65
<i>Validity</i>	65
<i>Face Validity</i>	66
<i>Criterion Validity</i>	67
<i>Construct Validity</i>	67
<i>Content Validity</i>	67
Some Thoughts on Reliability and Validity	68
Study Questions	69
For Further Reading	69
6. Working With Scales and Indices	70
Types of Scales and Indices	71
Using Existing Scales and Indices	75
<i>Where to Find Them</i>	75
<i>Permission, Copyrights, and So Forth</i>	75
How Do We Evaluate Scales and Indices?	76
<i>Dimensionality</i>	76
<i>Determining Internal Consistency of Scales and Indices</i>	76
How Do We Deal With Missing Data in Scales and Indices?	77
<i>Strategies for Dealing With Missing Data</i>	78
Study Questions	79
For Further Reading	80

7. Studying Families: Quantitative Methods	81
Studying Families Through Experiments	82
<i>Threats to Internal Validity</i>	84
<i>Threats to External Validity</i>	85
<i>Dealing With Threats to Validity</i>	86
Studying Families Through Survey Methods	87
<i>Mailed Questionnaires</i>	88
<i>Telephone Interviews</i>	89
<i>Personal Interviews</i>	90
<i>Time Diary Methods</i>	90
<i>Surveys Over the Internet</i>	91
<i>Other Modes of Survey Research</i>	92
Studying Families Through Nonreactive Techniques	93
<i>Four Kinds of Errors Introduced by the Respondent</i>	93
<i>Three Kinds of Errors Introduced by the Researcher</i>	94
Types of Nonreactive Research	95
<i>Physical Traces</i>	95
<i>The Running Record</i>	95
<i>Advantages of the Running Record</i>	96
<i>The Episodic and Private Record</i>	96
Secondary Analysis of Sample Surveys	97
Some Limitations of Quantitative Methods	97
Study Questions	98
For Further Reading	98
8. Studying Families: Qualitative Methods	101
Qualitative Research Compared to Quantitative Research	102
Types of Qualitative Strategies	103
<i>Case Studies</i>	104
<i>Ethnographies</i>	105
<i>Focus Groups</i>	107
Studying Families Through Observation	108
<i>Five Criteria</i>	108
Evaluating Qualitative Research	110
Study Questions	111
For Further Reading	111
9. Studying Families: Mixed Methods	113
Mixed-Method Approaches to Family Research	114
<i>Explanatory Mixed-Methods Design</i>	114
<i>Exploratory Design</i>	116
<i>Triangulation</i>	116
<i>Embedded Design</i>	117

Mixed-Model Studies in Family Research	117
Some Closing Thoughts on Choosing a Research Strategy	118
Study Questions	119
For Further Reading	120
10. Using Other People's Data	121
Advantages and Disadvantages of Secondary Analysis	122
What Are Some Sources of Data About Families?	123
Data From the U.S. Census Bureau	123
<i>Decennial Census</i>	123
<i>American Community Survey</i>	123
<i>Current Population Survey</i>	124
<i>American Time Use Survey</i>	124
Data From the Centers for Disease Control and Prevention	125
<i>National Survey of Family Growth</i>	125
<i>National Survey of Children's Health</i>	125
Other Sources	126
<i>General Social Survey</i>	126
<i>National Longitudinal Surveys</i>	126
<i>National Survey of Families and Households</i>	128
<i>Panel Study of Income Dynamics</i>	129
<i>Marital Instability Over the Life Course</i>	130
<i>The National Longitudinal Study of Adolescent Health</i>	131
<i>National Children's Study</i>	131
<i>National Study of the Changing Workforce</i>	131
<i>Public Opinion Polls</i>	131
Sources of Secondary Data Sets	132
Future Trends in Secondary Data Analysis	133
Study Questions	134
For Further Reading	134
11. Analyzing Data on Families	135
Descriptive Statistics	136
<i>Measures of Central Tendency</i>	136
<i>Measures of Variability</i>	137
<i>Measures of Association</i>	138
Interpreting Cross-Classification Tables	139
Inferential Statistics	141
Commonly Reported Tests of Statistical Significance	143
<i>The Chi-Squared Test</i>	143
<i>Tests of Significance for Measures of Association</i>	143
<i>Tests for Means</i>	144
<i>Multiple-Regression Analysis</i>	144

Some Thoughts About Statistical Analysis	147
Study Questions	147
For Further Reading	148
12. Advanced Topics in Family Data Analysis	149
The Idea of Nested Entities	150
Analyzing Nested Data	150
Individual Change Over Time	150
<i>Information From Multiple Family Members</i>	151
<i>Individuals in Social Context</i>	152
Final Thoughts on Nested Entities	154
Study Questions	154
For Further Reading	154
13. Evaluating Family Programs	156
Needs and Social Impact Assessment: What Is the Problem?	158
Outcome Assessment: Does It Work?	159
Process Research: How Does It Work?	160
Some Thoughts About Randomization in Evaluation Research	161
The Relationship Between Applied and Basic Research	163
Study Questions	163
For Further Reading	164
14. The Ethics and Politics of Family Research	165
Ethical Issues in Research on Families and Children	166
<i>Informed Consent</i>	166
<i>Anonymity and Confidentiality</i>	166
<i>Right to Knowledge of the Findings</i>	167
<i>Right to Remedial Services</i>	167
What Is the Role of the Institutional Review Board?	168
Political Concerns in Research on Families	168
<i>Control of Employment Opportunities</i>	169
<i>Control of Publication Channels</i>	169
<i>Control of Research Funding</i>	171
Some Closing Thoughts	172
Study Questions	173
For Further Reading	173
References	175
Glossary and Index	185
About the Authors	201
