

Chapter 4: Agent-Based Modelling and Geographical Information Systems

By Andrew Crooks

- Many of the models (including the **Urban Growth Model**, the **Pedestrian and Traffic Models**, and the **Segregation Model**) can be found at:

<http://www.cs.gmu.edu/~eclab/projects/mason/extensions/geomason/>

- All of the others can be found at: <http://www.gisagents.org/>

NB These tend to be large file sizes and require a good knowledge of Java.
